**Easy to transport, lightweight powerchair**

*Invacare Esprit Action^4\textsubscript{NG}* is a compact and lightweight power wheelchair for those that like to get about easily. It’s tool free removable wheels and compact battery pack make it ideal for transporting (heaviest item weighing only 15 Kg). It has lightweight wheels with an option for self propel and a reduced overall width (seat plus 170 mm) making it narrow enough to manoeuvre around the tightest of spaces.

The *Esprit Action^4\textsubscript{NG}* provides all the advantages of driving a power wheelchair indoor and outdoor, without the size and bulk of an average power wheelchair.
Compact and lightweight
Thanks to the new chassis structure (available in 5 colours) and overall width, everything is smaller and narrower for getting around indoors. And with a specially designed frame the total width of the chair does not add more than 170 mm to the width of the seating. The Esprit Action NG is easy to dismantle making it highly transportable.

Highly Configurable
The adult version has eight seat widths options from 380 to 605 mm and three seat depths from 400 to 500 mm.

The junior version offers four different seat widths of 305 to 380 mm and seat depths from 325 - 375 mm.

More options available
The armrest width allows for configuration adjustments of up to 50 mm (maximum) allowing for more customised seating and frame positions. It can be equipped with a variety of configured options including backrest for Matrx positioning. Esprit Action NG also provides the option of an attendant control should this be required. There is a range of colours to choose from including Ocean Blue, Slate Grey, Pearl White, and Anthracite Black for the adult version. For the junior version there is Ocean Blue, Pearl White, Bubble Gum Pink and Anthracite Black.

Features and Options

Dual intuitive pressure sensors
This allows an attendant to drive the wheelchair from behind in an easy yet intuitive manner.

Alber anti-tippers as standard
With Jack up function to help the quick release of wheels.

Welded castor mounts provide greater rigidity on the front of the chair.

Wheel protection bumper
Sleek yet Powerful Design
The Esprit Action™ has been designed in such a way to allow all the configurable options you would expect in a manual chair, but incorporating the powerful drive wheels discreetly into the hubs.

Junior Version
Esprit Action™ is available in two different sizes: adult or junior version.

Features and Options

Adaptable arm widths gives up to 50mm adjustment.

Simply push and turn to remove wheel.

Overall width reduced
The frames allow for the motors to sit inside and reduce the width.

Self Propel Wheels (Option)
Convert the chair to a manual chair.

Disassembled and folded chair
The heaviest part weighs only 15 kg (chassis).
